

University Admit Eligibility Predictor

Problem statement

- 1. Bala subramani is a student who is predict for an university because he want to join in a university**
- 2. Bala Subramani is a student who is predict for an university because he want to join in a university at a lower price.**
- 3. Kavi is a student who needs to know the University tution fees so that he can affort it.**
- 4. When students come from rural places , they find it hard to go along with the formal procedures. So, this application helps them a lot and eases out their fear.**
- 5. This can be implemented in less time for proper admission process.**
- 6. This can be accessed anytime anywhere, since it is web application provided only an internet connection.**
- 7. This can be accessed anytime anywhere, since it is a web application provided only an internet connection.**
- 8. The students only have to enter their marks of XII, AIEEE etc. With this application, the students can very easily obtain the list of colleges even branch wise and course wise. This will not only make the admission process easy but also minimizes stress for students . The main objective of our system is to make the right choice college**
- 9. Whatever may be their scores , this application helps to find the best colleges . Hence, our proposed computer aided system will help the students to get the list of all colleges in which they could get the admission at the click of a button.**
